GENERAL INFORMATION

A Digital Satellite Receiver is a convenient product that allows you to view a variety of programs provided through satellite. This user's guide covers the installation of the DSR and the necessary steps to implement various features. This also explains special features available only in this DSR in detail, which will allow you to make full use of these feature.

Information confirmed in this document is subject to change. We reserves the right, without notice, to make change in product design or performances as progress in engineering or technology.

Main Features

- MPEG2 SD, MPEG2 HD, H.264/AVC SD, H.264/AVC HD
- Embedded Conax
- SCPC and MCPC receivable from C/Ku band satellite
- Automatic PAL/NTSC conversion
- 5000 channels TV and Radio programmable
- 8 different favorite groups selection
- Multi-language OSD (English, French, German, Italian, Spanish, Portuguese, Russian, Turkish, Arabic, Polish etc)
- Fully support to 7 days Electronic Program Guide(EPG)
- Picture in Graphics(PIG) support
- True color On Screen Display
- Automatic network search for newly added transponders
- DiSEqC 1.2 fully support, 13/18V, 0/22K, 0/12V LNB control
- Various channel editing functions(favorite, moving, locking, renaming, deleting and sorting)
- Parental control for channels
- Easy to use Menu System
- Software upgrades through RS232 port and Receiver to receiver, Support USB upgrade
- 8 Timer Reservations, automatically switch to a specific channel
- Subtitle support DVB EN300743 and EBU
- Teletext support DVB ETS300472 by VBI and OSD
- Automatic save for last channel
- Channel list can be sorted by alphabetic A-Z,Scramble,Favorite,Lock,Sat
- Dual display – HD and SD simultaneous
- Support FAT16/FAT32/FAT12
- Only list JPEG/BMP files
- 480i/p, 576i/p, 720p, 1080i with HDCP copy protection
- Games

For Your Safety
- To avoid electric-shock hazards, do not open the cabinet, refer servicing to qualified personnel only.
- Keep the receiver away from flower vases, tubs, sinks, etc., in order to avoid damaging the equipment.

- Do not expose the receiver un-der the sunlight. And keep it away from the heat source.

- Do not block ventilation holes of the Receiver so that air can circulate freely.

- When the abnormal phenomenon occur, you should cut off the power immediately.
- Do not touch the receiver during thunder, since that might create electric-shock hazards.
- Switch the receiver off whenever it remains out of service for an extended period.
- Be sure to turn the Receiver off and disconnect the AC power cord before cleaning the Receiver surface. If the surface is dirty, wipe clean with a cloth which has been dipped in a weak soap-and-water solution and wrung out thoroughly, and then wipe again with a dry cloth.

Unpacking

● Remote Control   ● Batteries   ● **User's** Guide
● Audio/Video cable

General Operation

● Throughout this manual you will notice that the everyday operation of the receiver is based on a series of user friendly on screen display and menus. These menus will help you get the most from your receiver, guiding you through installation, channel organizing, viewing and many other functions.

● All functions can be carried out using the buttons on the RCU, and some of the functions can also be carried out using the buttons on the front panel.

● The receiver is easy to use, always at your command and adaptable for future advances.

● Please be aware that new software may change the functionality of the receiver.

● Should you experience any difficulties with the operation of your receiver, please consult the relevant section of this manual, including the Problem Shooting, or alternatively call your dealer or a customer service adviser.

RCU

| Key	Function
⏻	Turns power ON/OFF of the DSR
🔇	When watching a channel, mute the sound
0~9	Enter number of the required menu item or select a channel number to watch
TV/RADIO	Switches between TV and Radio mode

Main Menu

- Make sure that you have properly installed and connected the cables of the receiver .
  If the receiver is the factory status or there is no program list, when power on, the
  Main Menu window will be displayed on the screen.
  During the normal TV/Radio mode, press **MENU** key on the RCU to enter into the
  Main Menu window.

- This menu consists of 6 major main menus
  as follow.

  - **- Edit Channel**
  - **- Installation**
  - **- System Setup**
  - **- Tools**
  - **- Game**
  - **- REC**

- During the installation the **OK** key confirms a selection and **LIST** key shows Down
  List Box if the column has   mark. You can also use the numeric keys on the
  RCU to enter numeric value.

  Use the **PR+**, **PR-** key to move upwards and downwards from one line to another
  line and use ⊿ ⊾ key to move from main menu to sub menu and move from left
  side to right side or versa.

  Meantime, you want to escape the menu system, please press **MENU** or **EXIT** key
 on the RCU.

● If there is no program, you can not exit from the **Main Menu** window by pressing **MENU** or **EXIT** key. System will inform "No channel" and the following items turn grey.

| Sub-menu	Turn grey when there is no program	
Edit Channel	TV Channel List Radio Channel List Delete all

System Setup	Language Local Time Setting Parental Lock Favorite Display Setting	TV System Timer Setting OSD Setting Other
Tools	Information Upgrade By RS232 Conditional CA Remove USB device safely Upgrade by Network	Factory Setting Upgrade by USB Common Interface Media Player Network Local Setting
Game	Tetris Othello Sudoku	
REC	HHD Information Storage Format DVR Configuration	

1. Edit Channel

1. Press **OK** key or ⊾ key to pop up the "Input Password" dialogue, you can not enter into the menu unless the correct password is inputted. The default password is "**0000**".

2. Press **PR+, PR-** keys to move the cursor up or down.

3. Press **EXIT** key or ⊿ key to move the focus to the left menu.
1.1 TV Channel List

1. Press ⊿ ⊾ keys to select satellite.

2. Press **PR+, PR-** keys to select the program that you want to play, and then press **OK** key to view it in the small window. If move the **yellow** cursor to select up or down, you will see a gray line which indicates the playing program in the small window.
MENU INFORMATION

3. Press **FAV** key to move the FAV button upward. Select the program and press **OK** key to pop up the favourite group list. In the list, select the group that you want to add into and press **OK** key, and then you will find the favourite mark is displayed at the right side of the selected program.

Press **FAV** key again to exit from the fav mode, and you will find the FAV button return to the origin position.
4. Press **red** colour key to move the Lock button upward. Select the program and press **OK** key to mark this program with the Lock mark. You can cancel this mark by pressing **OK** key once more.

Press **red** colour key again to exit from the lock mode, and you will find the Lock button return to the origin position.

5. Press **green** colour key to move the Skip button upward. Select the program and press **OK** key to mark this program with the skip mark. You can cancel this mark by pressing **OK** key once more.

Press **green** colour key again to exit from the skip mode, and you will find the Skip button return to the origin position.

6. Press **yellow** colour key to move the Move button upward. Select the program and press **OK** key to mark this program with the move mark. Press **PR+, PR-** keys to move the cursor to the position where you want to locate and press **OK** key to confirm.

Press **yellow** colour key again to exit from the yellow mode, and you will find the yellow button return to the origin position.
7. Press **blue** colour key to enter into the **Edit channel** window.
i . Sort (red colour key)

Press **red** colour key to pop up the Sort drop-down list.

Name(A-Z): The ascending order, omitting the $ character, the number is ahead, then the capital letter, at last the lowercase.

Name (Z-A): The opposite order of the above Name (A-Z).

Free/Scramble: All FTA programs are listed ahead, while all scrambled programs are listed last.

**Lock:** all locked programs are listed at the last.

Default

ii. Edit (green colour key)

Press green colour key to move the Edit button upward. Select the program and press **OK** key to pop up the **Rename** window.

In **Rename** window, press **red** colour key to switch between capital letter and lower letter; press **green** colour key to delete the character on the cursor; press ⌐ ⌐ keys to move the cursor left or right; press **numeric keys (0-9)** to input the character, please refer to the down table. Press **yellow** colour key to save and exit, or press **blue** key to cancel and exit.
Numeric keys	Press numeric key repeatedly, display in circle
1	.,*?!@1
2	ABC2
3	DEF3
4	GHI4
5	JKL5
6	MNO6
7	PQRS7
8	TUV8
9	WXYZ9
0	[space]_-0

If the name is empty, system will pop up a dialogue informing "Name" once **yellow** colour key is pressed. Press **OK** key to close this dialogue.

iii. Delete (blue colour key)

In **Delete** window, press **blue** colour key to move the Delete button upward. Select the program and press **OK** key to mark this program with the deletion mark. You can cancel this mark by pressing **OK** key again.

Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.

1.2 Radio Channel List

Sine the same operation as **1.1 TV Channel List**, here we don't explain any more.

1.3 Delete All

Move cursor to the **Delete All** item, and press **OK** Key to pop up the dialogue "Warning! Do you really want to delete all channel?".

Press **EXIT** key to pop up the dialogue "Are you sure to save?". Select Yes button and press **OK** key to save, or select NO button and press **OK** key to exit without saving.
2. Installation

1. Press **OK** key or ⊏⁺ key to pop up the "Input Password" dialogue, you can not enter into the menu unless the correct password is inputted. The default password is "0000".
2. Press **PR+, PR-** keys to move the cursor up or down.

3. Press **EXIT** key or ⊐ key to move the focus to the left menu.

2.1 Antenna Connection

Press ⊐ ⊏⁺ keys to select between Motor Antenna and Fixed Antenna.

2.2 Satellite List

1. Press **PR+, PR-** keys to select the satellite up or down. Press **OK** key to select and mark, and you can press **OK** key again to cancel the selection and the mark.

2. If there is no satellite, the red colour and blue colour keys will be invalid.

3. Press **red** colour key to pop up the **Edit Satellite** window. Press **PR+, PR-** keys to move cursor up or down.
Name: User numeric keys to change the name of the satellite, please refer to the **Edit Channel** Name.

Longitude: You can press ⊿ ⊾keys to switch between east longitude and west longitude. After pressing **OK** key, you can use numeric keys to edit the longitude, press **EXIT** key or the **PR+, PR-** keys to exit editing mode. The range of the longitude is from 1 to 180 degree. If beyond this range, system will inform you "out of range" when you press **yellow** colour key on the RCU.

After setting, press **yellow** colour key to save and exit, while press blue colour key to exit without saving.

4. Press **green** colour key to pop up the **Add Satellite** window. Since the same operation as the above **Edit Satellite** window, here we don't explain any more.

5. Press **blue** colour key to pop up the dialogue "Are you sure to delete?". Select Yes button and press **OK** key to delete the selected satellite. You can cancel this operation by pressing **OK** key at the NO button.

2.3 Antenna Setup

Part A: **Fixed**

Suppose that you have selected Fixed Antenna in the **Antenna Connection** window.

1. Satellite: All selected satellites in the satellite list are displayed in this item.

Press ⊿ ⊾ keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

2. LNB Freq, Transponder, DiSEqC1.0, DiSEqC1.1: The same operation as the above.

3. 22K, 0/12V, Polarity: You can press ⊿ ⊾ keys to select in circle.
Part B: **Motor**

Suppose that you have selected Moter Antenna in the **Antenna Connection** window.

**1. LNB Type:** Select the proper LNB type.

2. Motor Type: Select between DiSEqC1.2 and USALS. If you select DiSEqC1.2, the following Local Longitude and Local Latitude items will turn grey.

3. Delete All: Press **OK** key to pop up the dialogue "Are you sure to clear set satellite position of this tuner?". Press **OK** key at the Yes button to clear all the memories about the position of the satellites that are connected to the current tuner.

4. Motor Setting: Press **OK** key to the **Motor Setting** window.

Satellite: Press ⊿ ⊾ keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.

Transponder: The same operation as the above.
Position No., & Save: The range is from 0 to 63. "0" delegates the original position. You can select the proper value when you has rotated the antenna.

Go to X: Press **OK** key to pop up the drop-down list, select the proper position (reference or from 1 to 63) to realize the selected position.

West <Save> East: Press ◿ key to turn west, while press ◺ key to turn east. Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to save the current position, or press **OK** key at the No button to cancel the operation.

Recalculation: Press **OK** key to pop up the dialogue "Are you sure to change this satellite's position?". Press **OK** key at the Yes button to recalculation.

5. Limit Setup: Press **OK** key to pop up the **Limit Setup** window.

Limit Setup: Press ◿ ◺ keys to switch among Disable Limit, East Limit and West Limit.

**Limit Setup:** Move cursor to the Limit Setup button. You can press ◿ key to turn west , or press ◺ key to turn east.

Go to Reference: Press **OK** key to go to reference. If you select Disable Limit in the above Limit Setup item, this button will turn grey.

**6.** If select USALS, Delete All item will turn grey.

Local Longitude, Local Latitude: Press ◿ ◺ keys to switch between West and East, or press ◿ ◺ keys to switch between North and South. Press **OK** key to enter into the editing mode. Use **numeric keys (0-9)** to input the longitude or latitude, press **MENU** key or **EXIT** key to exit. The range of the longitude is from 0 to 180, while the range of the latitude is from 0 to 90. If the inputted value is not in this range, system will pop up a dialogue "Out of Range" when you exit from this window. You can press **OK** key to close this dialogue.
7. Motor Setting: Press **OK** key to enter into the **Motor setting** window.

Satellite, Transponder: Press ⊿ ⊾ keys to select satellite or transponder, or press **OK** key to pop up the drop-down list and select in the list.
2.4 Single Satellite Search

1. Satellite : Press ⊿ ⊾ keys to select the satellite in circle. Or press **OK** key to pop up the drop-down list, then select the desired satellite in the list and press **OK** key to confirm.
2. FTA Only: Press ⊿ ⊾ keys to select between Yes and No.

3. Scan Channel: Press ⊿ ⊾ keys to select among TV+Radio, TV Channel, Radio.

4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press ⊿ ⊾ keys to select between Auto Scan and Preset Scan. Auto Scan is Blind scan, while Preset Scan is to search the preset frequencies.

**6. Search:** Press **OK** key to start searching.

2.5 Multi Satellite Search

From the **Multi Satellite Search** window, you can search several satellites at the one time.

1. Satellite: All selected satellites in the satellite list window are displayed on the down part. You can press ⊿ ⊾ keys to switch among them.

2. FTA Only: Press ⊿ ⊾ keys to select between Yes and No.

3. Scan Channel: Press ⊿ ⊾ keys to select among TV+Radio, TV Channel, Radio.
4. Network Search: Select between No and Yes. This item turns grey when Auto Scan is selected in the following Scan mode item.

5. Scan Mode: Press ⌅ ⌅ keys to select between Auto Scan and Preset Scan. Auto Scan is Blind scan, while Preset Scan is to search the preset frequencies.

6. Search: Press **OK** key to start searching.

2.6 TP List

1. Press **PR+,PR-** keys to select the proper satellite.

2. Press **red** colour key to pop up the **Edit TP** window.

Frequency, Symbol rate: Press ⌅ ⌅ keys to add or reduce by step one. Or press **numeric keys (0-9)** to input the desired value. The range of the frequency is 3000-13500, while the range of the symbol rate is 1000~45000. The inputted value is beyond this range, the value will return to the origin value.

**Polarity:** Press ⌅ ⌅ keys to switch between Vertical and Horizontal.
3. Press **green** colour key to pop up the **Add TP** window. Since the same operation as the above **Edit TP** window, here we don't explain any more.

4. Press **yellow** colour key to pop up dialogue "
Are you sure to delete?". Press **OK** key at the
Yes button to delete the selected TP, or press
**EXIT** key to cancel the operation.

5. Press **blue** colour key to pop up the **TP
Search** window.
FTA only, Scan Channel, Network Search:
Press ⊿ ⊾ keys to select the proper option.
Press **OK** key at the OK button to start searching.

### 3. System Setup

1. Press **OK** key or ⊾⁺ key to move the cursor to
the right menu.
2. Press **PR+, PR-** keys to move the cursor up or
down.
3. Press **EXIT** key or ⊿ key to move the focus
to the left menu.

3.1 Language

1. Press **OK** key to enter into the **Language**
window. Press ⊿ ⊾ keys to select the language
in circle, while press **PR+, PR-** keys to move the
cursor up or down in circle.
2. Press **MENU** key or **EXIT** key to save and exit.
3. The types of the language, pleaser refer to the
configuration of the customer.

3.2 TV System

Press **PR+, PR-** key to move the cursor up or down, while press ⊿ ⊾ keys to change the setting and the setting will take effect immediately.

1. Video Resolution: Select among 480i, 576i, 480p,576p, 720p and 1080i.

2. Aspect Mode: Select among 4:3LetterBox, 4:3PanScan, 16:9 and Auto.

3. Video Output: Select between RGB and YUV.

4.Digital Audio Out: Select among LPCM Out, Auto and BS Out.
3.3 Display Setting

1. Brightness: Press ⊿ ⊾ key to select from 0-100.
2. Contrast: Press ⊿ ⊾key to select from 0-100.
3. Saturation: Press ⊿ ⊾ key to select from 0-100.

3.4 Local Time Setting

1. Summer Time: Select between ON and OFF. "OFF" delegates the normal time. If select ON, time will add one hour.

2. GMT Offset: When select "ON" in GMT Usage item, system will get the date and time information from the screen automatically. Date and Time two items will turn grey. Select the proper option in the GMT Offset item. The default setting is GMT ON.

3.Date, Time: When select "OFF" in GMT Usage, Date and Time two items take effect, while GMT Usage turns grey. Use numeric keys to input the desired value.5. After setting, press **MENU** key or **EXIT** key to exit and save. If the value is invalid, system will inform "Invalid input! Continue to edit?". Press **OK** key at the Yes button to continue the modification, or press **OK** key at the No button to exit without saving.

3.5 Timer Setting

If there is no program, you can not enter into this window. There are 8 timers that can be set. Select Timer up or down, and press **OK** key to enter into the setting window.

1. Timer mode: The default mode is off. You can set the timer once, daily, weekly, monthly and yearly.

4. Confirm Password: Input the new password once again. Confirm password must be the same as the New password. System will inform you "Change password successfully!" while they are the same, or inform you to input the password of Confirm password once again when they are not the same.
3.7 OSD Setting

1. OSD Timeout: Press ⇌ ⇌ keys to select from 1 to 10 by step 1. The default values Is 5.
2. OSD Transparency: Press ⇌ ⇌ keys to select among Off, 10%, 20%, 30%, 40%. The default option is Off.
Press MENU or EXIT key to save and exit.
### 3.8 Favorite

There are 32 favorites group listed in this window. Press **PR+, PR-** keys to select one and press **OK** key to the **Rename** window. Since the same operation as the above the **Add Satellite** window, here we don't explain any more.
3.9 Other

1. LNB Power: Select between Off and On.
2. Channel Play Type: Select among All, Free, Scramble.

4. Tools

1. Press **OK** key or ⇌ key to pop up the "Input Password" dialogue, you can not enter into the menu unless the correct password is inputted. The default password is **0000.**
2. Press **PR+, PR-** keys to move the cursor up or down.
3. Press **EXIT** key or ⇌ key to move the focus to the left menu.

### 4.1 Information

Press **OK** key to the Information window.

4.2 Factory Setting

Press **OK** key to enter into the **Factory Setting** window.

Select Yes button and press **OK** key to return to the factory setting. All searched channels and set information will be erased.
Select No button and press **OK** key to cancel this operation, or press **MENU** or **EXIT** key to cancel and exit.

4.3 Upgrade By RS232

1. Press ⊿ ⊾ keys to select among allcode, maincode, card, Radioback, keydate defaultdb, userdb. The default option is allcode.

2. Press **OK** key at the Start button to start checking serial port.

4.4 Common Interface

There are many types of CI. Here we take Conax access for example.

Press **OK** key to enter into the main menu.
You can know information about product Ordering, Subscription Status, PPV Status, Token Status and so on.

Product Ordering

● Not avaliable in this software.

Subscription Status

● Know the detail information of Subscription Status.

PPV Status

● No Entitlement.

MENU INFORMATION

Tokens Status

● Know the detail information of Tokens Status.

Change CA PIN

● **Changes CA PIN** window is designed for changing the smart card's PIN, which is required if you want change the maturity level settings.
In order to change the PIN, you must know the current PIN also called the old PIN. Input the new PIN and twice the PIN (New PIN and Confirm PIN must be the same) your want to set. Move cursor to **OK** button and press **OK** key, and then system will pop up a dialogue informing you the changing result.
Note that the PIN can only constructed with Arabic numerals.

Change Signature PIN

● Do the same way as the above Change PIN.

Note: The signature PIN will be locked after the three erroneous attempts to enter the correct PIN. If locked, please call the dealer for help.

Maturity Rating

● In Maturity Rating submenu, you can change the smart card s maturity rating, which will affect whether scrambled program is granced or not. There are four available settings for selection: **G-General Audience,A-Over18,X-Erotic,G-For the family,PG- parental Guidance.**
In order to change the maturity level, you must enter the correct PIN. If all of the items are satisfied, then you can click change maturity level button. A dialogue will tell you whether your change is succeeded or not.

Modem Ordering

● Not Modem available.

About Conax CA

● Know the information about Conax CA.

Message

● All messages are listed in this window.

MENU INFORMATION

Language

● Show all the language you can select.

Loader Status

● You can select allow download or forbid download.

4.5 Conditional CA

Select **Conditional CA** item and press **OK** key, then you will enter into its sub-menu which consists four items of About CA Info, Change PIN, Change Signature PIN, Maturity Level.

4.5.1 About CA Info

In **About CA Info** sub-menu, you can know the basic information about this conditional access such as Card Status, CAS System ID, Interface Version, Card Number, Number of sessions, Country Indicator, and Maturity Level.
4.5.2 Change PIN

Changes PIN window is designed for changing the smart card's PIN, which is required if you want change the maturity level settings.

In order to change the PIN, you must know the current PIN also called the old PIN. Input the new PIN and twice the PIN (New PIN and Confirm PIN must be the same) your want to set. Move cursor to **OK** button and press **OK** key, and then system will pop up a dialogue informing you the changing result.
Note that the PIN can only constructed with Arabic numerals.

4.5.3 Change Signature PIN

Do the same way as the above Change PIN.

Note: The signature PIN will be locked after the three erroneous attempts to enter the correct PIN. If locked, please call the dealer for help.

4.5.4 Maturity Level

Input the PIN then Move cursor to **Select Maturity level,**you can select **A-Over18,X-Erotic,G-General audience,PG-Parental Guidance,**move cursor to **Change Maturity level** button and press **OK** key,and then system will pop up a dialogue informing you the changing result.

4.5.5 Subscription Status
Know the detail information of Subscription Status.

4.5.6 Even Status
Know the detail information of Event Status.

4.5.7Token Status

Know the detail information of Tokens Status.

4.6 Upgrade by USB

1.Upgrade File: Show the Upgrade File.
2.Upgrade Mode: Select between AllCode and Dump. When users switch the upgrade mode, "Upgrade File" will show the corresponding file according to the table below:

| Upgrade Mode	File feature
All code :	File named as "*.abs"
Main Code:	File named as "*.bin"
Radio back:	File named as "*.m2v", the picture will be used as both radio back and menu back
Default db:	File named as "*.bin"
Select the upgrade mode and upgrade file, then you can start upgrade by USB.

3.Press OK key on start button to start receiving the data from USB device. When the USB device is not connected, this item is grey, you can not edit it now.

4.7 Media Player

This menu will be disabled when no USB device is plugged. Media Play List will not be saved when USB plug out or standby or power off.

Move scroll bar when press up/down key, page up or down by page key. Go into sub-directory when press ok key in the file directory, play the selected file when scroll bar is on the file, automatic return USB menu after play is over.
